

Dear Wiltshire CCG,

Thank you for meeting with us today to receive a copy of this petition which has been signed by **1995 people in the area covered by Wiltshire Clinical Commissioning Group.**

The text of the petition is as follows:

"Dear Wiltshire CCG,

Our NHS is precious, and we're relying on you to protect it. Please do all you can to stop local health services being broken up or taken over by irresponsible private companies.

- *Protect local NHS services and consult patients properly before making changes*
- *Spend money wisely and don't do deals with irresponsible private companies*
- *Adopt policies and a constitution which reflect these values"*

A copy of the petition is on the enclosed CD. For data security it is password protected, so for instructions on how to access the signatories, please email the 38 Degrees office on ccgsupport@38degrees.org.uk from your NHS email address.

Please also find a copy of "Clinical Commissioning Groups: Protecting our NHS together".

In this document, you'll find sample wording and variations which a CCG can adopt into their constitution. Drafted by specialist lawyers, this draft wording aims to improve the NCB draft by setting a clear constitutional framework for safeguarding the NHS. It does so in a way which is compatible with the legal requirements of the Health and Social Care Act.

As local people who rely on the NHS, we would ask that you adopt these variations into the constitution for Wiltshire CCG and look forward to hearing your views on this as soon as possible.

Once again, thanks for taking the time to meet with us today.

Yours sincerely,

Christine Gale
