

# Our Annual Public Health Report 2013/14

Wiltshire's Director for Public Health has a statutory duty to produce an annual report on the health of our local population, to account for public health activity and to chart our progress.

# Public Health in 2013/14

- First year in the wider Wiltshire Council family
- Opportunities provided by the Health and Social Care Act 2012
- Integrated with public protection and leisure services
- Effective partnership working
- Our new system has been tested - measles outbreak and flooding over the Winter of 2013/14

## This year....

- We supported around 2,500 people to stop smoking
- More than 2000 people across the county attended a Community Area JSA event
- Lower numbers of obese and overweight children were recorded in Year 6
- 14,800 people had an NHS Health Check
- 3,000 people were referred to the Active Health scheme
- We launched our health trainer programme

# Life expectancy and healthy life expectancy

# Our key priorities and indicators

To support continuing improvements in healthy life expectancy we are focusing on:

- Health Check uptake
- Excess weight in 4-5yrs olds & 10-11 yrs olds
- Excess weight in Adults
- Smoking Prevalence
- Percentage of physically active and inactive adults
- Under 75 mortality from cancer
- Under 75 mortality from cardiovascular diseases

# Our results 2013/14
