## Wiltshire CCG, Workforce Report - Quarter 2, 2014-15

### 1. Introduction

This report has been prepared for Wiltshire CCG and represents the HR report for Quarter 2 as at 30<sup>th</sup> September 2014. Attached to this narrative report at Appendix 1 is the HR Workforce Profile Report and at Appendix 2, the Core Training Report. Both reports outline key statistical data. The narrative also provides some updates to the CCG on current workforce activities within the organisation.

This report will be produced at the end of each quarter, the next report covering Quarter 3 – October to December 2014 - will be produced by the 30<sup>th</sup> January 2015.

### 2. Establishment

Wiltshire CCG has achieved a relatively stable position in employee numbers since the last report, with a headcount of 121, with a whole time equivalent (WTE) of 105.43. Previous headcount for the period ending 31<sup>st</sup> March 2014 was 124, and the WTE was 108.33. :

Robust recruitment checking processes are in place to ensure all recruitment activity has finance and director approval prior to proceeding to advert, in order to monitor and control running costs.

Those staff who may be working on an interim or agency basis with the CCG and who are not on the payroll are not included in these numbers.

More detailed information relating to the starters and leavers during this period can be found on Page 3 of the attached Workforce Profile report, but the year to date summary is shown below:

Month	Starters Headcount	Turnover Headcount
April	5	0
May	8	1
June	0	1
July	0	4
Aug	2	3
Sep	1	3
<b>Total</b>	<b>16</b>	<b>12</b>

\*1 additional leaver has now been reported for June – this was processed through payroll after the reporting cut-off point and was not therefore included in the Q1 report.

This report has been prepared by Central Southern Commissioning Support Unit, ConSultHR Service.

Comparative leaver data for the same months of last year (2013) can be seen on Page 3 of the attached Workforce Profile report.

## **2.1. New Staff**

3 new staff were recruited during this period in the following roles:

- Business Support Manager,
- Interim Head of CHC/FHC – Specialist Placements
- Quality – Quality & Patient Safety Lead

## **2.2. Turnover and Reasons for Leaving**

There have been 10 leavers recorded since 1 April 2014. This equates to a 3 month turnover of 8.20%,

The formula gives  $10/122$  (average quarterly) headcount  $\times 100 = 8.20\%$  for the year to date.

This turnover rate is substantially higher than that reported in the last quarter (0.82%), and although there are no clear themes emerging from this quarter's analysis of the reasons for leaving, the turnover level should be kept under review for the coming quarter.

The members of staff who left the CCG during the quarter categorised their reasons as:

- 4 x other,
- 1 x retirement age,
- 1 x dismissal,
- 2 x relocation
- 1 x promotion and
- 1 x lack of opportunities.

## **2.3. Exit Interviews & Survey Monkey questionnaires**

ConSultHR recently introduced the use of on-line questionnaires via the Survey Monkey tool.

The on-line questionnaires have a number of benefits and allow us to:

- Send a link to staff to enable them to complete the survey on-line quickly and easily
- Collate initial results automatically
- Encourage higher response rates

The introduction of the exit interview surveys is relatively recent, and so far 3 questionnaires have been sent out with just 1 returned. We have not therefore had sufficient returns yet to be able to analyse the data and report on it, but going forward every leaver will be sent a questionnaire and providing return rates are better, more feedback will be provided in future reports.

## **2.4. Length of Service**

Actual continuous NHS length of service for Wiltshire CCG staff is shown in the table on Page 3 of the attached Workforce Profile report.

This report has been prepared by Central Southern Commissioning Support Unit, ConSultHR Service.

## **2.5. Business Unit Structure**

The CCG structure shown in Appendix 1 is a direct report from the Electronic Staff Record (ESR) system which was established for the organisation on 1<sup>st</sup> April 2013. The directorate titles for reporting requirements should be regularly reviewed by the CCG to ensure they are meaningful and continue to reflect the organisation's structure.

## **3. Core Training**

Provision for statutory and mandatory training is via the Skills for Health e-learning platform, with the exception of Information Governance training which is provided via the Connecting for Health platform. .

During the first year of reporting the levels of statutory and mandatory training compliance were built cumulatively, reaching a substantially better position by the year-end on 31<sup>st</sup> March 2014.

The significant progress achieved during the year directly reflected the importance the organisation attached to this training, and the attention and support it has been given by CCG Directors and Senior Managers and the CSCSU HR Manager aligned to Wiltshire CCG.

Of particular note was the positive decision by the Executive Management team to allocate 2 days as dedicated time specifically to support staff in completing their mandatory training.

In addition, the requirement to complete mandatory training is highlighted to all new staff joining the CCG, and is a key part of the overall induction process which has itself been extensively reviewed and refreshed following the completion of a significant collaborative project between ConSultHR and CCG senior managers.

To give the fullest picture as at 30<sup>th</sup> September 2014, the attached report gives the data for a rolling 12 month period rather than just for the first two quarters.

Additional work has also been completed by ConSultHR to develop the presentation of the data to reflect CCG preferences. The report therefore presents the completion rates for Information Governance as a single figure, combining both the Beginners Guide to Information Governance and the Introduction to Information Governance modules into one result.

Similarly, the completion rates for Equality, Diversity and Human Rights training modules are presented as a combined figure which includes both the Pre-Assessment and the Full modules completion rates.

Looking forward, ConSultHR is in the process of undertaking additional work over the coming period to further refine and enhance this report so that it provides greater detail on, for example, due dates for training renewal. This will then provide more detailed and targeted support to line managers in monitoring both the completion and (importantly) the maintenance of all necessary mandatory training programmes for their teams.

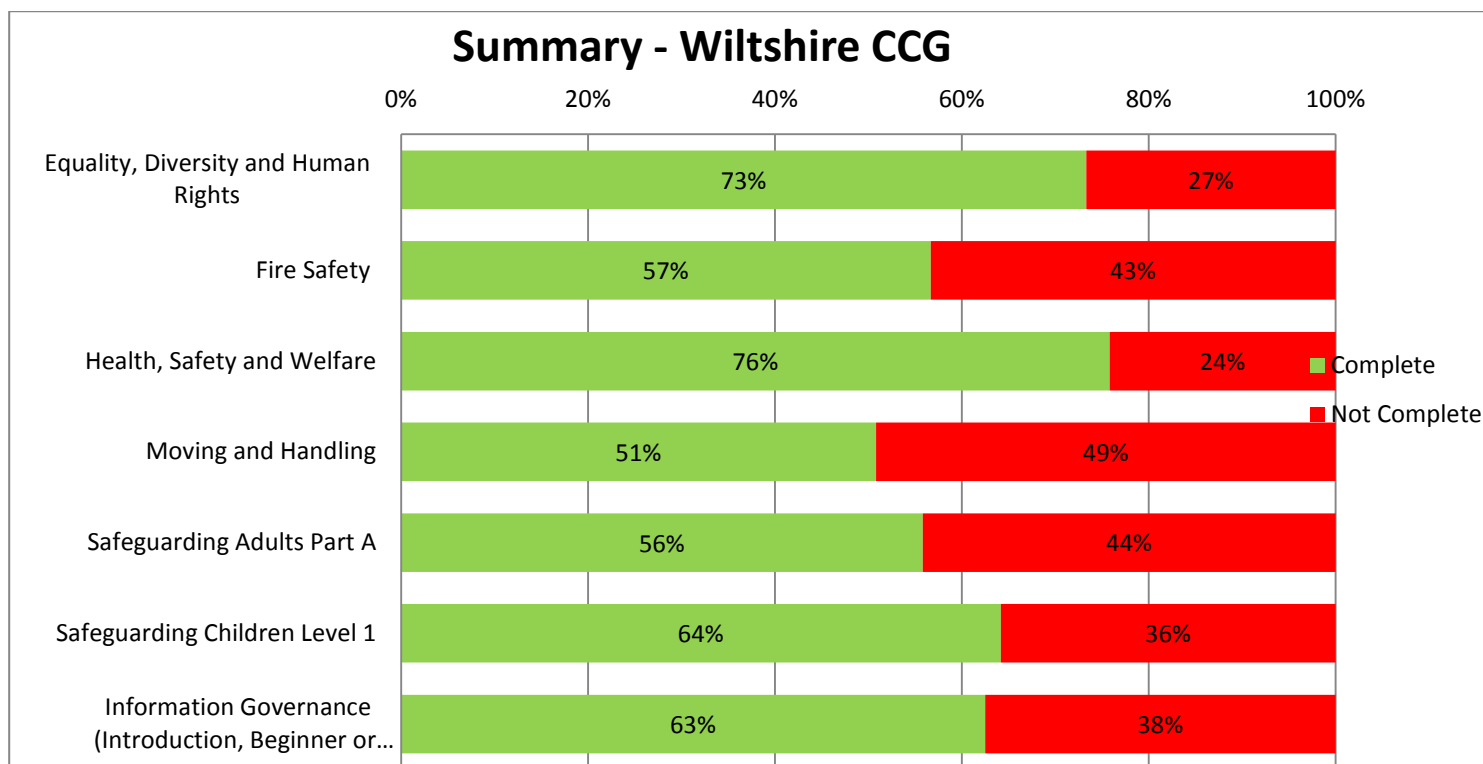

Core Training completion remains a priority for the organisation and it is recommended that Directors and Managers continue to be tasked with raising the profile of this across the organisation to ensure their staff are compliant with organisational requirements.

Directorate managers are supplied with a list identifying individual staff and their compliance with training requirements. The CCG should ensure that Directorate Managers discuss training completion with each member of staff who has not yet commenced and completed or updated their statutory training, and agree the target and date for achieving full compliance for the organisation. An anonymised breakdown of compliance by directorate is included at Appendix 2

This report has been prepared by Central Southern Commissioning Support Unit, ConSultHR Service.

### 3.1. Core Training Completion Summary

The summary of mandatory training completion for the year 1<sup>st</sup> October 2013 to 30<sup>th</sup> September 2014 is shown below; the full details are shown in Appendix 2.

### 4. Appraisals

An appraisal and objective-setting process has been established and communicated within the CCG and work to ensure that all staff have fresh annual objectives in place for this financial year has been a subject of particular focus over recent months.

To support this important line management process, a methodology for managers to report on completion of appraisals has been developed with the HR Manager so that this information can be recorded and reported on by ConSultHR each quarter as part of this Workforce Report.

This new reporting mechanism enables the CCG to monitor the completion of performance reviews, together with objective-setting and the development of individual Personal Development Plans for all employees.

HR has therefore been working actively with Directors to help them raise the profile of the objective and appraisal process across the organisation so that completion numbers can be further improved over the coming weeks.

The summary of the current position across the WCCG as a whole can be seen below.

The full report giving a greater level of detail is also attached.

This report has been prepared by Central Southern Commissioning Support Unit, ConSultHR Service.

Going forward the presentation of this data will be kept under review over the next few months to ensure it continues to provide the most relevant analysis in order to support line managers.

## **Quarter 2 - 2014/15 - Performance Reviews/ Objectives Completed - Wiltshire CCG**

	<b>Number of staff reporting appraisal activity*</b>	<b>Percentage of total number of Wiltshire CCG staff</b>
Performance reviewed and objectives set in last 12 months	57	48

*\*This number reflects those staff who reported having had an appraisal or performance review in this period. Activity levels may be higher if there has been a degree of under-reporting.*

Once all or most CCG employees have an agreed PDP in place it is intended that ConSultHR will work with Directors to undertake a Training Needs Analysis later in the year.

### **5. Line Manager training**

Line manager training delivered by ConSultHR has thus far included 4 separate sessions covering Performance Management, Appraisal, Sickness Absence Management, and Recruitment & Selection, which means therefore that the S.L.A. commitment of 4 sessions per annum has already been met.

Further sessions will however be scheduled for the coming quarter, according to demand.

This training programme will be reviewed in the autumn to determine what other provision might be required this year.

### **6. Attendance Management**

Sickness rates across the organisation remain acceptable and reasonably low, and they have reduced somewhat since Q1. Historically, average sickness rates in the PCT were recorded at around 2 to 3% pa.

Wiltshire CCG sickness absence figures are currently running at 2.74% for the rolling 12 month period ending 30<sup>th</sup> September 2014. The annual figure reported in Q1 (as at the end of June 2014) was 2.94%.

The report on page 3 of the attached Workforce Profile shows sickness absence as a monthly percentage across the whole year, and clearly shows the peaks and troughs of absence during the whole year across the organisation. Of particular note is the absence rate of just 0.69% in September which was the lowest of this annual reporting period.

The HR Manager continues to work closely with CCG managers to ensure that the culture of sickness reporting is embedded with their teams and they are well supported with any attendance issues.

Locally delivered HR Line Manager Training on Absence Management is now also well under way in order to coach, support and train managers in handling these issues effectively.

This report has been prepared by Central Southern Commissioning Support Unit, ConSultHR Service.

## **7. Employee Relations**

### **7.1. Disciplinary, Capability and Grievance issues**

The CCG has been supported in managing a number of informal and formal employee relations issues, relating to both capability and conduct.

## **8. Monitoring of Professional Registration**

In response to a request from the CCG, a new process was agreed for reporting registration renewal dates to ConSultHR so that monthly reports can be produced by ConSultHR to support managers in ensuring their professional staff maintain their registration as appropriate.

This process is intended to cover those for whom current professional registration is a requirement for the role. It is still relatively early days and so the data is still building, but with increased publicity to raise the profile of this initiative ConSultHR should be in a position to provide situation reports on this in future.

## **9. Staff Survey**

A proposal to implement the first annual Staff Survey for WCCG was included in the Communications plan which was presented to the CCG Governing Body in March.

ConSultHR worked closely with lead Directors to develop a bespoke questionnaire for the CCG which was agreed by Executive Directors in July. The survey was launched on 15<sup>th</sup> September and remained open for a period of 3 weeks.

Initial 'raw' data taken directly from the Survey Monkey tool was provided to the CCG Executive Team at the request of lead senior managers, and the full report and analysis is due to be delivered in mid-November.

## **10. Employee Lifecycle project**

ConSultHR has worked closely with key managers within the CCG over a period of several months in order to completely review and streamline the processes described as the 'Employee lifecycle'.

This has enabled improvements to be identified which help to make the process for line managers smoother and the experience for those staff going through the process to join or to leave the organisation both smoother and a more efficient transition.

This work has been completed and will be launched in the near future.

## **11. Equality and Human Rights**

The HR Workforce Profile Report at Appendix 1 shows in more detail the breakdown of the staffing within the CCG. This is useful information to demonstrate that the make-up of the workforce is being reviewed and can provide information on an annual basis to meet equality requirements. Broadly the organisation reflects the Wiltshire demographic although it should be noted that ethnic minorities are under-represented within the workforce. Consideration may need to be given to this as part of recruitment if the CCG wish to encourage the development of a more diverse workforce.

During August a data cleanse exercise was undertaken by ConSultHR with a view to updating and improving the level of accurate equality and diversity information held on ESR. Only 65 responses were received following the issuing of 110 letters to staff to explain the need and the benefits of this exercise, and the CCG may wish to consider repeating the exercise at a later date.

This report has been prepared by Central Southern Commissioning Support Unit, ConSultHR Service.

In addition, the CSU is working with the CCG to provide supplementary specialist support in identifying legal requirements, tools for self-assessing equalities performance and conducting Equality Impact Analyses, and providing access to EIA training and equalities awareness sessions for the Governing Body and managers.

## **12. Policy Development**

As part of the HR service specification, Central Southern Commissioning Support Unit (CSCSU) is responsible for the provision of all core CCG HR policies.

In response to feedback from some CCGs, ConSultHR has been developing the look and feel of the ConSultHR Portal beyond its original generic design, and we were pleased to announce the new and innovative ConSultHR portal at the end of Q1.

On the opening page of the ConSultHR portal staff are now asked to select Wiltshire CCG in order to establish the branding for their own organisation. This represented stage one in the customisation of the portal for WCCG.

Phase two enables staff to view and access ConSultHR policies and procedures specifically relevant to Wiltshire CCG, including any newly agreed ones and any remaining legacy Primary Care Trust policies and procedures. These legacy policies and procedures will be reviewed over the coming quarter to determine which may need deleting or updating as appropriate.

## **13. Health and Wellbeing**

On behalf of the CCG, ConSultHR trialled an interactive Health Kiosk at the CCG offices for a full week. A member of staff was available to support the use of the kiosk on the first day, with self-service access to the kiosk for the remaining 4 days.

The kiosk was made available to all CCG and CSU staff as part of our commitment to joint working, and subsequent feedback was positive about the initiative.

The kiosk allowed staff to self-test key indicators of general health including weight, body mass index, body fat content, heart rate, blood pressure, and life balance. 58 CCG took up the opportunity
